RENEWABLE ENERGY

Boralex Action Declaration

A Corporate Knights Initiative

2022

World's most sustainable corporations support governments to address climate change

In November 2022, at COP27 in Egypt, 57 global companies that are leaders in sustainability endorsed an Action Declaration to Paris-align their climate policy engagement activities.

Action Declaration

The Action Declaration outlines how industry leaders in the movement to decarbonize the economy will support ambitious action to close the say–do gap on countries' emission reductions by:

1. Supporting climate action aligned with the Paris Agreement when engaging with policymakers
2. Working with their major industry/trade associations to advance alignment with the Paris Agreement
3. Monitoring and disclosing climate policy alignment for their companies and their major industry/trade associations

Article 1

Supporting climate action aligned with the Paris Agreement when engaging with policymakers

In our world where electricity lies at the heart of the fight against climate change, we have the responsibility to produce it sustainably for future generations. As a producer of renewable energies, our teams contribute every day to the efforts of energy transition by developing a greener and more diversified energy offer.

Committed its mission, Boralex actively collaborates with all stakeholders in the renewable energy sector, including decision-makers and influencers, to achieve the objectives of the Paris Agreement

Article 2

Working with their major industry/trade associations to advance alignment with the Paris Agreement

Boralex is a proud partner of the following organizations and associations:

North America

- Chair in Energy Sector Management - HEC Montréal
- Quebec Association for the Production of Renewable Energy
- Canadian Renewable Association (CANREA)
- Clean Energy Canada
- Quebec Business Council on the Environment
- Nergica - Research and Innovation in Renewable Energies
- American Clean Power
- Alliance for Clean Energy NY

Europe

- SER | Syndicat des énergies renouvelables
- France renouvelables
- La plateforme verte
- France Agrivoltaïsme

Beyond being members of numerous organizations and associations advocating for renewable energies in the decarbonization of human activities, Boralex actively participates in various industry events as an exhibitor and by speaking at panel discussions to accelerate the energy transition. Here are some examples of public engagements by our leaders during the year 2022:

Canada

February

Avenir Énergie Les Affaires Conference

Les Affaires newspaper's annual energy event. Julie Cusson, Vice-President, Public and Corporate Affairs, took part in the panel "Energy transition and business opportunities for Quebec companies on the North American market".

July

International Economic Forum of the Americas Conference of Montreal

Bruno Guilmette, Vice President and CFO took part in the "Financing Green Growth" panel at this international event.

November

Association de l'industrie électrique du Québec's Grande consultation sur l'approvisionnement de l'industrie électrique au Québec.

Opening address by Isabelle Fontaine, Director, Public Affairs and Communications, and participation by Mihaela Stefanov, Director, Corporate Social Responsibility, on the panel "Issues and Challenges of Supply Chains in a Transforming Global Context".

Québec Mines & Energy

Mihaela Stefanov, Director, Corporate Social Responsibility, chaired a session on energy, moderating two panels on the themes of "Banking on a just transition" and "Changing our business models to accelerate the transition".

United States

September

New York Climate Week

Opening address by Isabelle Fontaine, Director, Public Affairs and Communications, and participation by Mihaela Stefanov, Director, Corporate Social Responsibility, on the "Issues and Challenges of Supply Chains in a Transforming Global Context" panel.

France

Nicolas Wolff, Senior Vice President and General Manager, Europe, took part in the "Bolstering Energy Security in a World in Transitions" panel at this international event.

Article 3

Monitoring and disclosing climate policy alignment for their companies and their major industry/trade associations

Beyond Renewable Energy : Our Environmental Mission Statement

At Boralex, ESG issues are part of our growth strategy.

On June 17, 2021, during Boralex's 2021 Investor Day, we unveiled a new strategic plan for 2025 that integrates the company's CSR strategy at all levels.

Among our 2025 targets, alongside our financial targets, is to be a benchmark in CSR for our partners, going beyond renewable energies.

We are convinced that succeeding in the energy transition is now inevitable to face the challenges of climate change.
